

2009

Wilson Lines, Inc.

Walter Mathews

Driver of the 2nd Quarter 2009

Company driver Walter Mathews has only been working for Wilson Lines since September 2008 and has already been voted Driver of the Quarter. Walter is from California and lived there his whole life, except for the past 2 ½ years. He moved to Minnesota to be closer to his wife's family. While he doesn't particularly like the cold and snow, he says that Minnesota is great.

Walter has been a truck driver for over 15 years and his favorite place to drive is anywhere in California. He likes to be on the go and the freedom to be his own boss when he is on the road. He also likes the variety of the job and wondering where he will be going next. He appreciates being able to get home to his family every week. Walter really enjoys working for Wilson Lines and he jokes, "I like to make Larry miserable!"

Walter and his wife, Heather, live in Minneapolis. They have a daughter, Madison – 3, and a son, Nicholas – 2. Walter likes to unwind by playing video games on his Xbox 360. They like to spend time as a family at their relatives' cabin near Brainerd, and doing kid-friendly activities such as going to museums and the zoo.

**Congratulations to Walter on being Wilson Lines'
Driver of the 2nd Quarter!
Keep up the good work!**
